### APPLY

Use our knowledge to make an informed decision about your major, career path, relocation or transition

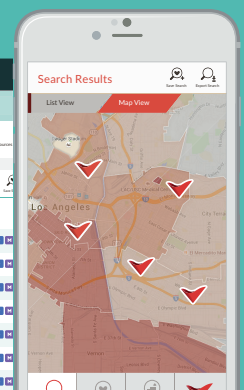

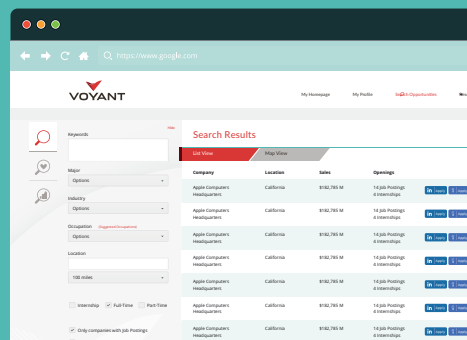

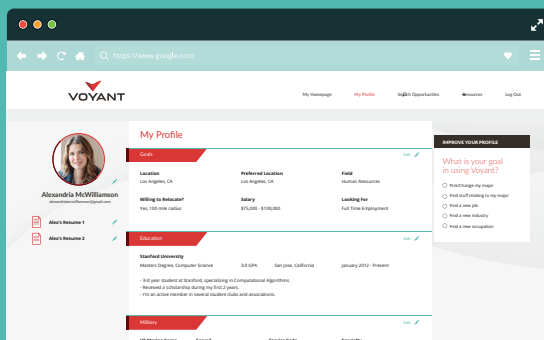

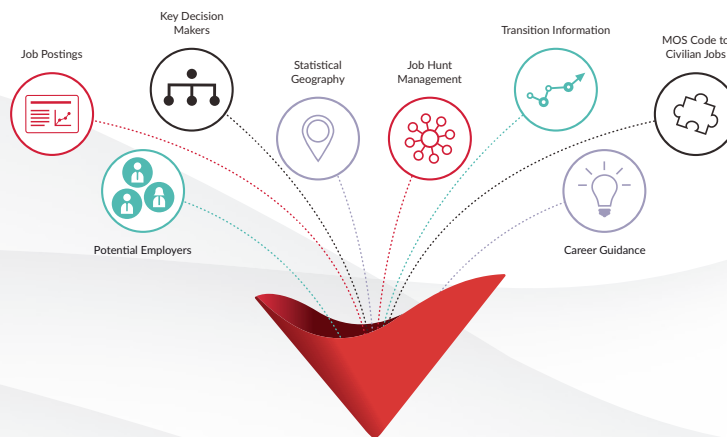

### SUCCEED

Use Voyant's organization and data-driven tools to manage your job hunt and achieve greater success

Did you know :

- Most jobs are filled through networking.
- 80% of jobs are never advertised.
- Over 100 people are applying for every dream job.
- Most resumes are screened by software, not humans.

Voyant offers an amazing amount of information and guidance together in one place.

## JOB SEEKERS

Voyant provides a bigger slice of the pie by helping job seekers get access to every opportunity, not just the measly 20% that millions of other job seekers can find. Voyant can't do the work for the job seeker, but it can make finding golden opportunities a heck of a lot easier with great career advice, simplified searching and an amazing tracking widget. Voyant tracks all activities, discoveries, searches, applications, favorite companies, jobs, events, reminders, contacts and more. All this information can then be shared with career counselors, advisors, friends, and parents.

## MILITARY AND THEIR FAMILIES

Our military men and women have given a lot to their country, and Voyant would like to give something back. Whether moving on to civilian life, relocating while on active duty or a veteran is looking for the next step in his/her career, Voyant is here to help make the most of this exciting opportunity. Voyant provides a simple MOS/MOC code translator, in-depth database access and an amazing tracking widget. It's never been easier to translate skills, find opportunities in a chosen field, reach out to employers and manage the application process. The job seeker will go from M-O-S to J-O-B, ASAP.

### Search made simple

Voyant is intuitive, easy to use,  
and works on any device.

### Share results

With Voyant it's easy to keep  
family, friends and counselors  
in the loop with regular  
updates and online reports.

### Track progress

Voyant makes it easy to track activities, discoveries,  
searches, applications, favorite companies, jobs, events,  
reminders, to-do lists, contacts and more.

## PERSONALIZED DASHBOARD

A personalized interface helps the user to navigate through the site. The user can find events, search for online resources in the learning center and use their tracking widget, which keeps a record of the jobs and companies they've been searching.

## CUSTOMIZED SEARCH RESULTS

Voyant has the ability to search well beyond job postings. In Voyant, the user can customize exactly what kind of opportunities they want to look for. Students can search based on their major. Military personnel can search based on their MOC (Military Occupation Code). Any job seeker can look for companies based on size, location, and industry to see what opportunities are out there.

## ADMINISTRATIVE REPORTS

Administrators have access to in-depth reports that provide them with valuable knowledge of the program and users such as the total number of users, average usage time, average number of searches, top companies searched, top industries searched, top occupations searched and the number of jobs applied for.
